

PLASMA MONITOR OWNER'S MANUAL

MODELS : MU-60PZ95V

Please read this owner's manual thoroughly before operating the Monitor.

Retain it for future reference.

Record model number and serial number of the Monitor.

See the label attached on the back of the Monitor and relate this information to your dealer if you ever require service.

Model Number :

Serial Number :

Warning

WARNING/CAUTION
RISK OF ELECTRIC SHOCK
DO NOT OPEN

WARNING/CAUTION:

TO REDUCE THE RISK OF ELECTRIC SHOCK DO NOT REMOVE COVER (OR BACK). NO USER SERVICEABLE PARTS INSIDE. REFER TO QUALIFIED SERVICE PERSONNEL.

The lightning flash with arrowhead symbol, within an equilateral triangle, is intended to alert the user to the presence of uninsulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

WARNING/CAUTION:

TO PREVENT FIRE OR SHOCK HAZARDS, DO NOT EXPOSE THIS PRODUCT TO RAIN OR MOISTURE.

FCC NOTICE

• A Class B digital device

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

• Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

CAUTION:

Do not attempt to modify this product in any way without written authorization from LG Electronics. Unauthorized modification could void the user's authority to operate this product.

COMPLIANCE:

The responsible party for this product's compliance is:
LG Electronics U.S.A., Inc
1000 Sylvan Avenue, Englewood Cliffs, NJ 07632
1-800-243-0000
<http://www.lgusa.com>

WARNING/CAUTION

TO REDUCE THE RISK OF FIRE AND ELECTRIC SHOCK, DO NOT EXPOSE THIS PRODUCT TO RAIN OR MOISTURE.

Safety Instructions

Important safeguards for you and your new product

Your product has been manufactured and tested with your safety in mind. However, improper use can result in potential electrical shock or fire hazards. To avoid defeating the safeguards that have been built into your new product, please read and observe the following safety points when installing and using your new product, and save them for future reference.

Observing the simple precautions discussed in this booklet can help you get many years of enjoyment and safe operation that are built into your new product.

This product complies with all applicable U.S. Federal safety requirements, and those of the Canadian Standards Association.

1. Read these instructions.
2. Keep these instructions.
3. Heed all warnings.
4. Follow all instructions.
5. Do not use this apparatus near water.
6. Clean only with dry cloth.
7. Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
8. Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
9. Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
10. Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.

Safety Instructions continued

11. Only use attachments/accessories specified by the manufacturer.

12. Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus.
When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.

13. Unplug this apparatus during lightning storms or when unused for long periods of time.

14. Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has exposed to rain or moisture, does not operate normally, or has been dropped.

15. Outdoor Use Marking :

WARNING - To Reduce The Risk Of Fire Or Electric Shock, Do Not Expose This Appliance To Rain Or Moisture.

16. Wet Location Marking :

Apparatus shall not be exposed to dripping or splashing and no objects filled with liquids, such as vases, shall be placed on the apparatus.

Introduction

What is a Plasma Display Panel (PDP)?

If voltage is applied to gas within glass panels, ultraviolet rays are produced and fused with a fluorescent substance. At that instant, light is emitted. A Plasma Display is a next generation flat Display using this phenomenon.

160° - Wide angle range of vision

Your flat panel plasma screen offers an exceptionally broad viewing angle -- over 160 degrees. This means that the display is clear and visible to viewers who can see the screen anywhere in the room.

Wide Screen

The screen of the Plasma Display is 60" so wide that your viewing experience is as if you are in a theater.

Multimedia

Connect your plasma display to a PC and you can use it for conferencing, games, and internet browsing. The Picture-in-Picture feature allows you to view your PC and video images simultaneously.

Versatile

The light weight and thin size makes it easy to install your plasma display in a variety of locations where conventional TVs would not fit.

The PDP Manufacturing Process: Why minute colored dots may be present on the PDP screen

The PDP (Plasma Display Panel) which is the display device of this product is composed of 0.9 to 2.2 million cells. A few cell defects will normally occur in the PDP manufacturing process. Several minute colored dots visible on the screen should be acceptable. This also occurs in other PDP manufacturers' products and the tiny dots appearing does not mean that this PDP is defective. Thus a few cell defects are not sufficient cause for the PDP to be exchanged or returned. Our production technology is designed to minimize cell defects during the manufacture and operation of this product.

Cooling Fan Noise

In the same way that a fan is used in a PC computer to keep the CPU (Central Processing Unit) cool, the PDP is equipped with cooling fans to cool the Monitor and improve its reliability. Therefore, a certain level of noise could occur while the fans are operating and cooling the PDP.

The fan noise doesn't have any negative effect on the PDP's efficiency or reliability. The noise from these fans is normal during the operation of this product. We hope you understand that a certain level of noise from the cooling fans is acceptable and is not sufficient cause for the PDP to be exchanged or returned.

Controls

Front Panel Controls

- This is a simplified representation of a typical front panel.

The Front Panel Controls shown here may be somewhat different from your monitor.

Connection Options

Back Connection Panel

1. REMOTE CONTROL

Connect your wired remote control to the remote control port on the Monitor.

2. RS-232C INPUT (CONTROL/SERVICE) PORT

Connect to the RS-232C port on a PC.

3. DVI (Digital Visual Interface) INPUT/ AUDIO INPUT/ RGB INPUT JACKS

Connect the monitor output connector from a PC to the appropriate input port.

4. RGB OUTPUT PORT

You can watch the RGB signal on another monitor, connect RGB OUTPUT to another monitor's PC input port.

5. DVD/DTV Input (Component 1-2)

Connect a component video/audio device to these jacks.

6. Monitor Output

Connect a second Monitor.

Audio/Video Input

Connect audio/video output from an external device to these jacks.

7. S-Video Input

Connect S-Video out from an S-VIDEO device to the S-VIDEO input.

8. EXTERNAL SPEAKER (8 ohm output)

Connect to optional external speaker(s).

* For further information, refer to 'Speaker & Speaker Stand' manual.

9. POWER CORD SOCKET

This Monitor operates on an AC power. The voltage is indicated on the Specifications page. Never attempt to operate the Monitor on DC power.

Remote Control Key Functions

- When using the remote control, aim it at the remote control sensor on the monitor.
- Under certain conditions such as if the remote IR signal is interrupted, the remote control may not function. Press the key again as necessary.

Installing Batteries

- Open the battery compartment cover on the back side and insert the batteries with correct polarity.
- Install two 1.5V alkaline batteries of AAA type. Don't mix used batteries with new batteries.

Installation

Ensure that the following accessories are included with your plasma display. If an accessory is missing, please contact the dealer where you purchased the product.

Owner's Manual

Alkaline Batteries

Remote Control

DVI-D Cable

Power Cord

D-sub 15 pin Cable

Installation Instructions

- The Monitor can be installed in various ways such as on a wall, or on a desktop etc.
- The plasma display is designed to be mounted horizontally or vertically. The speakers shown are optional.

GROUNDING

Ensure that you connect the grounding / earth wire to prevent possible electric shock. If grounding methods are not possible, have a qualified electrician install a separate circuit breaker. Do not try to ground the unit by connecting it to telephone wires, lightening rods, or gas pipes.

Wall Mount Installation

For proper ventilation, allow a clearance of 4" on each side and 2" from the wall. Detailed installation instructions are available from your dealer, see the optional Wall Mounting Bracket Installation and Setup Guide.

Installation Instructions continued

Desktop Pedestal Installation

For proper ventilation, allow a clearance of 4" on each side and the top, 2.36" on the bottom, and 2" from the wall. Detailed installation instructions are included in the optional Desktop Stand Installation and Setup Guide available from your dealer.

Wall Mount: Vertical installation

Detailed installation instructions are included in the optional Vertical Wall Mounting Bracket Installation and Setup Guide available from your dealer.

NOTE: When installing the monitor vertically, the front panel controls must be in the left side position.

When installing the monitor vertically, you have to change the OSD display mode so that the menus will appear correctly and also to protect the monitor from overheating.

External Equipment Connections

NOTE: All cables shown are not included with the Monitor

VCR Setup

- To avoid picture noise (interference), leave an adequate distance between the VCR and Monitor
- Use the ISM Method (on the Option menu) feature to avoid having a fixed image remain on the screen for a long period of time. Typically a frozen still picture from a VCR. If the 4:3 picture format is used; the fixed images on the sides of the screen may remain visible on the screen.

Connection Option 1

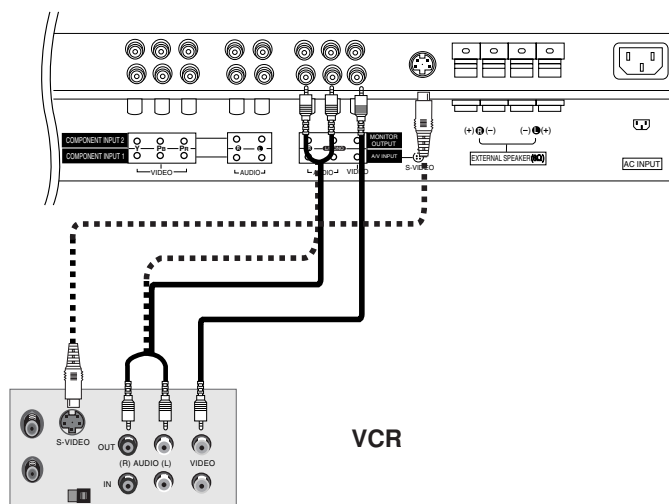

Set VCR output switch to 3 or 4 and then tune Monitor to the same channel number.

Connection Option 2

1. Connect the audio and video cables from the VCR's output jacks to the Monitor input jacks as shown in the figure.
When connecting the Monitor to VCR, match the jack colors (Video = yellow, Audio Left = white, and Audio Right = red).
If you connect an S-VIDEO output from VCR to the S-VIDEO input, the picture quality is improved; compared to connecting a regular VCR to the Video input.
2. Insert a video tape into the VCR and press PLAY on the VCR. (Refer to the VCR owner's manual.)
3. Select the input source with using the **INPUT SELECT** button on the remote control. (If connected to A/V INPUT 1, select **Video** input source)

Do not connect to both Video and S-Video at the same time. In the event that you connect both Video and the S-Video cables, only the S-Video will work.)

Cable TV Setup

- After subscribing to a cable TV service from a local provider and installing a converter, you can watch cable TV programming. The TV cannot display TV programming unless a TV tuner device or cable TV converter box is connected to the TV.
- For further information regarding cable TV service, contact your local cable TV service provider(s).

Connection Option 1

1. Select 3 or 4 with channel switch on cable box.
2. Tune the TV channel to the same selected output channel on cable box.
3. Select channels at the cable box or with the cable box remote control.

Connection Option 2

1. Connect the audio and video cables from the Cable Box's output jacks to the TV input jacks, as shown in the figure.
When connecting the TV to a Cable Box, match the jack colors (Video = yellow, Audio Left = white, and Audio Right = red).
2. Select the input source with using the **INPUT SELECT** button on the remote control. (If connected to A/V INPUT 1, select **Video** input source)
3. Select your desired channel with the remote control for cable box.

Cable Box

External A/V Source Setup

How to connect

Connect the audio and video cables from the external equipment's output jacks to the Monitor input jacks, as shown in the figure.

When connecting the Monitor to external equipment, match the jack colors (Video = yellow, Audio Left = white, and Audio Right = red).

How to use

- 1. Select the input source with using the **INPUT SELECT** button on the remote control. (If connected to A/V INPUT 1, select **Video** input source).
- 2. Operate the corresponding external equipment. Refer to external equipment operating guide.

DVD Setup

How to connect

- 1. Connect the DVD video outputs (Y, Pb, Pr) to the COMPONENT (Y, Pb, Pr) INPUT jacks on the Monitor and connect the DVD audio outputs to the AUDIO INPUT jacks on the Monitor, as shown in the figure.
- 2. If your DVD only has an S-Video output jack, connect this to the S-VIDEO input on the Monitor and connect the DVD audio outputs to the AUDIO INPUT jacks on the Monitor, as shown in the figure.

NOTE: If your DVD player does not have component video output, use S-Video.

How to use

- 1. Turn on the DVD player, insert a DVD.
- 2. Use the **INPUT SELECT** button on the remote control to select **Component 1** or **Component 2**. (If connected to S-VIDEO, select the **Video** external input source.)
- 3. Refer to the DVD player's manual for operating instructions.

• Component Input ports

To get better picture quality, connect a DVD player to the component input ports as shown below.

Component ports on the Monitor	Y	P _B	P _R
Video output ports on DVD player	Y	P _b	P _r
	Y	B-Y	R-Y
	Y	Cb	Cr
	Y	P _B	P _R

DTV Setup

- To watch digitally broadcast programs, purchase and connect a digital set-top box.

How to connect

Use the Monitor's COMPONENT (Y, Pb, Pr) INPUT, RGB or DVI jack for video connections, depending on your set-top box connector. Then, make the corresponding audio connections.

How to use

1. Turn on the digital set-top box. (Refer to the owner's manual for the digital set-top box.)
2. Use **INPUT SELECT** on the remote control to select **Component 1**, **Component 2**, **RGB**, or **DVI** source.

Signal	Component 1/2	RGB,DVI
480i	Yes	No
480p	Yes	Yes
720p	Yes	Yes
1080i	Yes	Yes

Monitor Out Setup

The Monitor has a special signal output capability which allows you to hook up a second monitor.

Connect the second monitor to the Monitor's MONITOR OUTPUT. See the Operating Manual of the second Monitor or monitor for further details regarding that device's input settings.

NOTE

- Component, RGB-PC/RGB-DTV, DVI-PC/DVI-DTV input sources cannot be used for Monitor out.

PC Setup

How to connect

1. To get the best picture quality, adjust the PC graphics card to 1024x768, 75Hz.
2. Use the Monitor's RGB INPUT or DVI (Digital Visual Interface) INPUT port for video connections, depending on your PC connector.
 - If the graphic card on the PC does not output analog and digital RGB simultaneously, connect only one of either RGB INPUT or DVI INPUT to display the PC on the Monitor.
 - If the graphic card on the PC does output analog and digital RGB simultaneously, set the Monitor to either RGB or DVI; (the other mode is set to Plug and Play automatically by the Monitor.)
3. Then, make the corresponding audio connection. If using a sound card, adjust the PC sound as required.

How to use

1. Turn on the PC and the Monitor.
2. Turn on the display by pressing the POWER button on the Monitor's remote control.
3. Use **INPUT SELECT** on the remote control to select **RGB**, or **DVI** source.
4. Check the image on your Monitor. There may be noise associated with the resolution, vertical pattern, contrast or brightness in PC mode. If noise is present, change the PC mode to another resolution, change the refresh rate to another rate or adjust the brightness and contrast on the menu until the picture is clear. If the refresh rate of the PC graphic card can not be changed, change the PC graphic card or consult the manufacturer of the PC graphic card.

NOTES:

- Use a DVI cable.
- Avoid keeping a fixed image on the Monitor's screen for a long period of time. The fixed image may become permanently imprinted on the screen. Use the Orbiter screen saver when possible.
- The synchronization input form for Horizontal and Vertical frequencies is separate.

Operation

Turning on the Monitor

Turning on the Monitor just after installation

1. Connect power cord correctly.
2. Press the ① **ON/OFF** button on the Monitor. At this moment, the Monitor is switched to standby mode. Press the **INPUT SELECT** button on the Monitor or press the **POWER, INPUT SELECT** button on the remote control and then the Monitor will switch on.

Turning on the Monitor (power cord is still connected)

1. If the Monitor was turned off with the ① **ON/OFF** button on the Monitor
 - Press the ① **ON/OFF** button on the Monitor to turn the Monitor on.
2. If the Monitor was turned off with the remote control and then the **ON/OFF** button on the Monitor
 - Press the ① **ON/OFF** button on the Monitor and then press the **INPUT SELECT** button on the Monitor or press the **POWER, INPUT SELECT** button on the remote control to turn the Monitor on.

Menu Language Selection

- The menus can be shown on the screen in the selected language. First select your language.

1. Press the **MENU** button and then use ▲ / ▼ button to select the **SPECIAL** menu.
2. Press the ► button and then use ▲ / ▼ button to select **Language**.
3. Press the ► button and then use ▲ / ▼ button to select your desired language.
From this point on, the on-screen menus will be shown in the language of your choice.
4. Press the **OK** button to save.

Picture Menu Options

APC (Auto Picture Control)

- APC adjusts the Monitor to the best picture appearance.
- If adjusting picture options (contrast, brightness, color, sharpness, or tint) manually, APC automatically changes to **Off**.

1. Press the **APC** button repeatedly to select the picture appearance setup option as shown below.

- You can also adjust **APC** in the **PICTURE** menu.
- **Daylight**, **Optimum** and **Night time** settings are preset for good picture quality at the factory and cannot be changed.

XD

- XD is LG Electronic's unique picture improving technology to display a real HD source through an advanced digital signal processing algorithm.
- When selecting APC options (Clear, Optimum and Soft), XD is automatically change to On.

1. Press the **MENU** button and then use **▲ / ▼** button to select the **PICTURE** menu.
2. Press the **►** button and then use **▲ / ▼** button to select **XD**.
3. Press the **►** button and then use **▲ / ▼** button to set **On** or **Off**.
4. Press the **OK** button to save.

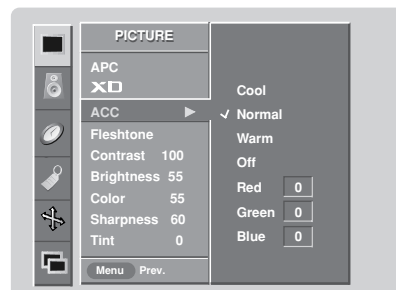

Color Temperature Control

Auto Color Temperature Control

- To initialize values (reset to default settings), select the **Normal** option.

1. Press the **MENU** button and then use **▲ / ▼** button to select the **PICTURE** menu.
2. Press the **►** button and then use **▲ / ▼** button to select **ACC**.
3. Press the **►** button and then use **▲ / ▼** button to select either: **Cool** (Preset), **Normal** (Default), or **Warm** (Preset).
4. Press the **OK** button to save.

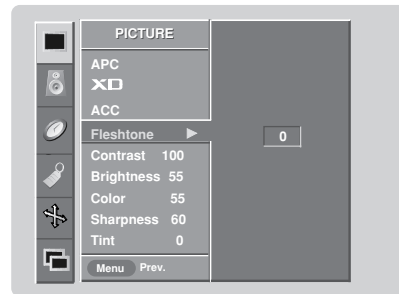

Manual Color Temperature Control (ACC set to Off option)

- You can adjust red, green, or blue to any color temperature you prefer.

1. Press the **MENU** button and then use **▲ / ▼** button to select the **PICTURE** menu.
2. Press the **►** button and then use **▲ / ▼** button to select **ACC**.
3. Press the **►** button and then use **▲ / ▼** button to select **Off**.
4. Press the **►** button and then use **▲ / ▼** button to select **Red**, **Green** or **Blue**.
5. Use the **◀ / ▶** button to make appropriate adjustments.
 - The adjustment range of **Red**, **Green**, and **Blue** is -30 ~ +30.
6. Press the **OK** button to save.

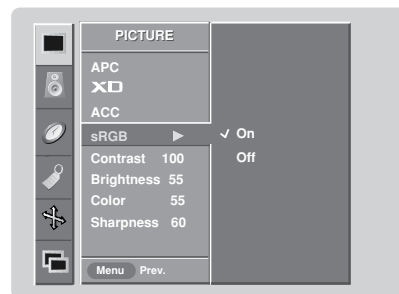

Fleshtone (RGB-DTV, and DVI-DTV Mode only)

- Use Fleshtone to select the desired skin color option.
1. Press the **MENU** button and then use ▲ / ▼ button to select the **PICTURE** menu.
 2. Press the ► button and then use ▲ / ▼ button to select **Fleshtone**.
 3. Press the ► button and then use ◀ / ▶ button to make appropriate adjustments.
 - The adjustment range is 0 ~ 3.
 4. Press the **OK** button to save.

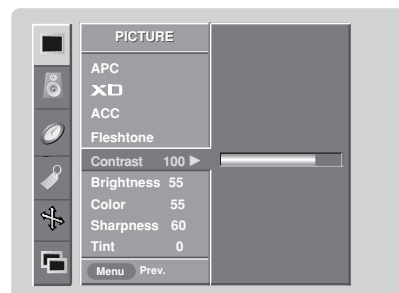

sRGB (only RGB-PC, DVI-PC Modes)

- If the Monitor is connected to external equipment using sRGB, set sRGB to On to adjust for the color difference.
1. Press the **MENU** button and then use ▲ / ▼ button to select the **PICTURE** menu.
 2. Press the ► button and then use ▲ / ▼ button to select **sRGB**.
 3. Press the ► button and then use ▲ / ▼ button to select **On** or **Off**.
 4. Press the **OK** button to save.

Manual Picture Control (APC set to Off option)

- You can adjust picture contrast, brightness, color, sharpness, and tint options to the levels you prefer.
1. Press the **MENU** button and then use ▲ / ▼ button to select the **PICTURE** menu.
 2. Press the ► button and then use ▲ / ▼ button to select the desired picture option (**Contrast**, **Brightness**, **Color**, **Sharpness**, **Tint**).
 3. Press the ► button and then use ◀ / ▶ button to make appropriate adjustments.
 4. Press the **OK** button to save.

Sound Menu Options

DASP (Digital Auto Sound Processing)

- This function lets you enjoy the best sound without any special adjustment because the Monitor has the appropriate sound options based on the program content.
- If you adjust sound options (Treble and Bass) manually, DASP automatically changes to **Off**.

1. Press the **DASP** button repeatedly to select the appropriate sound setup as shown below.

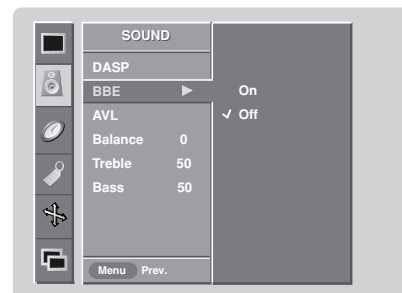

- You can also adjust **DASP** in the **SOUND** menu.
- **SRS TSXT**, **Flat**, **Music**, **Movie**, and **Sports** are preset for good sound quality at the factory and cannot be changed.
- **SRS**  is a trademark of SRS Labs, Inc.
- TruSurround XT technology is incorporated under license from SRS Labs, Inc.

BBE

- BBE High Definition Sound restores clarity and presence for better speech intelligibility and music realism.

1. Press the **MENU** button and then use **▲** / **▼** button to select the **SOUND** menu.
2. Press the **►** button and then use **▲** / **▼** button to select **BBE**.
3. Press the **►** button and then use **▲** / **▼** button to select **On** or **Off**.
4. Press the **OK** button to save.

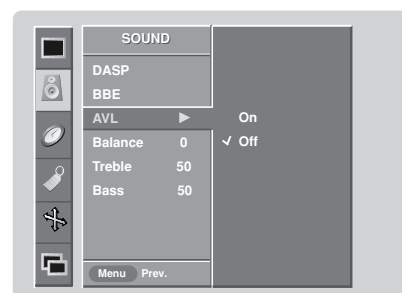

- **BBE**. Manufactured under license from BBE Sound, Inc.
- Treble, Bass and BBE aren't suitable for **SRS TSXT** mode.

AVL (Auto Volume Leveler)

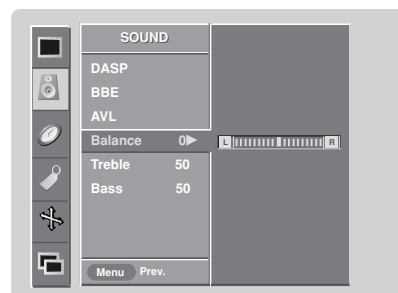

- AVL maintains an equal sound level; even if you change channels.

1. Press the **MENU** button and then use **▲** / **▼** button to select the **SOUND** menu.
2. Press the **►** button and then use **▲** / **▼** button to select **AVL**.
3. Press the **►** button and then use **▲** / **▼** button to select **On** or **Off**.
4. Press the **OK** button to save.

Manual Sound Control (DASP set to Off option)

- You can adjust sound options Balance, Treble, and Bass to the levels you prefer.
1. Press the **MENU** button and then use ▲ / ▼ button to select the **SOUND** menu.
 2. Press the ► button and then use ▲ / ▼ button to select the desired sound option (**Balance**, **Treble**, **Bass**).
 3. Press the ► button and then use ◀ / ▶ button to make appropriate adjustments.
 4. Press the **OK** button to save.

Timer Menu Options

Clock Setup

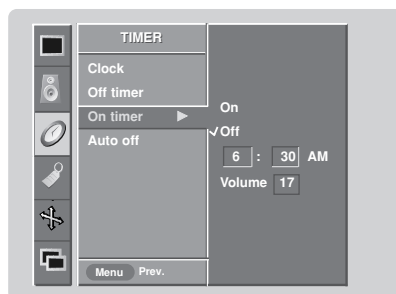

- If current time setting is wrong, reset the clock manually.

 1. Press the **MENU** button and then use **▲ / ▼** button to select the **TIMER** menu.
 2. Press the **▶** button and then use **▲ / ▼** button to select **Clock**.
 3. Press the **▶** button and then use **▲ / ▼** button to set the hour.
 4. Press the **▶** button and then use **▲ / ▼** button to set the minutes.
 5. Press the **OK** button to save.

On/Off Timer Setup

- Timer function operates only if current time has been set.
 - Off-Timer function overrides On-Timer function if they are set both set to the same time.
 - The Monitor must be in standby mode for the On-Timer to work.
 - If you do not press any button within 2 hours after the Monitor turns on with the On Timer function, the Monitor will automatically revert to standby mode.
1. Press the **MENU** button and then use **▲ / ▼** button to select the **TIMER** menu.
 2. Press the **▶** button and then use **▲ / ▼** button to select **Off timer** or **On timer**.
 3. Press the **▶** button and then use **▲ / ▼** button to select **On**.
 - To cancel **On/Off timer** function, select **Off**.
 4. Press the **▶** button and then use **▲ / ▼** button to set the hour.
 5. Press the **▶** button and then use **▲ / ▼** button to set the minutes.
 6. **For On timer function only**
Press the **▶** button and then use **▲ / ▼** button to set the volume level at turn-on.
 7. Press the **OK** button to save.

Auto Off

- If set to on and there is no input signal, the Monitor turns off automatically after 10 minutes.
1. Press the **MENU** button and then use **▲ / ▼** button to select the **TIMER** menu.
 2. Press the **▶** button and then use **▲ / ▼** button to select **Auto off**.
 3. Press the **▶** button and then use **▲ / ▼** button to select **On** or **Off**.
 4. Press the **OK** button to save.

Sleep Timer

- The Sleep Timer turns the Monitor off at the preset time. Note that this setting is cleared when the monitor is turned off.
1. Press the **SLEEP** button repeatedly to select the number of preset minutes. First the **zzz Min** option appears on the screen, followed by the following sleep timer turn off times:
10, 20, 30, 60, 90, 120, 180, and 240 minutes.
 2. When the number of minutes you want is displayed on the screen, press the **OK** button. The timer begins to count down from the number of minutes selected.
 3. To check the remaining minutes before the TV turns off, press the **SLEEP** button once.
 4. To cancel the Sleep Timer, press the **SLEEP** button repeatedly until **zzz Min** appears.

Special Menu Options

Key Lock

- The Monitor can be set up so that it can only be used with the remote control.
- This feature can be used to prevent unauthorized viewing by locking out the front panel controls.
- This Monitor is programmed to remember which option it was last set to even if you turn the Monitor off.

1. Press the **MENU** button and then use ▲ / ▼ button to select the **SPECIAL** menu.
2. Press the ► button and then use ▲ / ▼ button to select **Key lock**.
3. Press the ► button and then use ▲ / ▼ button to select **On** or **Off**.
4. Press the **OK** button to save.

- With the Key lock On, the display '▲ **Key lock**' appears on the screen if any button on the front panel is pressed.

ISM (Image Sticking Minimization) Method

- A frozen still picture from a PC/video game displayed on the screen for prolonged periods will result in a ghost image remaining even when you change the image. Avoid allowing a fixed image to remain on the Monitor's screen for a long period of time.

1. Press the **MENU** button and then use ▲ / ▼ button to select the **SPECIAL** menu.
2. Press the ► button and then use ▲ / ▼ button to select **ISM Method**.
3. Press the ► button and then use ▲ / ▼ button to select either **Normal**, **White wash**, **Orbiter** or **Inversion**.

• Normal

If image sticking is never a problem, ISM is not necessary - set to Normal.

• White wash

White Wash removes permanent images from the screen. Note: An excessive permanent image may be impossible to clear entirely with White Wash. To return to normal viewing, press any button.

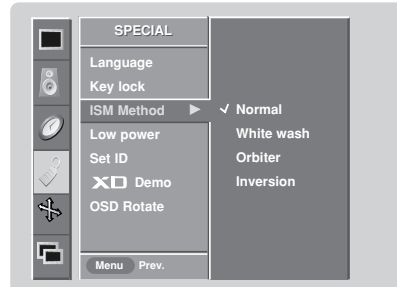

• Orbiter

Orbiter may help prevent ghost images. However, it is best not to allow any fixed image to remain on the screen. To avoid a permanent image on the screen, the image will move every 2 minutes: Right → Right → Downside → Downside → Left → Left → Upside → Upside.

• Inversion

Inversion will automatically invert the Monitor panel color every 30 minutes.

4. Press the **OK** button to save.

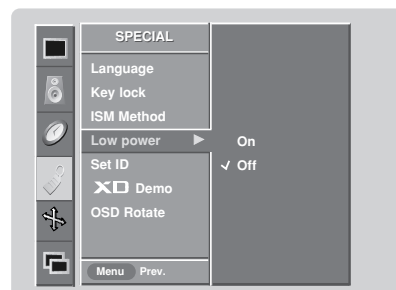

Special Menu Options continued

Low Power

- Low power reduces the plasma display power consumption.

1. Press the **MENU** button and then use ▲ / ▼ button to select the **SPECIAL** menu.
2. Press the ► button and then use ▲ / ▼ button to select **Low power**.
3. Press the ► button and then use ▲ / ▼ button to select **On** or **Off**.
 - When you select **On**, the screen darkens.
4. Press the **OK** button to save.

XD Demo

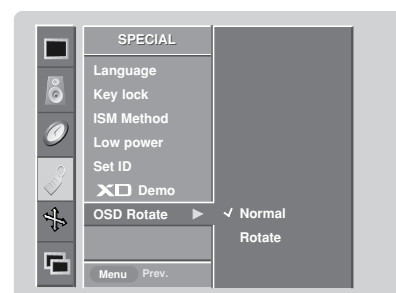

- Use it to see the difference between XD Demo on and XD Demo off.

1. Press the **MENU** button and then use ▲ / ▼ button to select the **SPECIAL** menu.
2. Press the ► button and then use ▲ / ▼ button to select **XD Demo**.
3. Press the ► button to begin **XD Demo**.
4. Press the **MENU** button to stop **XD Demo**.

Menu Rotation for Vertical Viewing

1. Press the **MENU** button and then use ▲ / ▼ button to select the **SPECIAL** menu.
2. Press the ► button and then use ▲ / ▼ button to select **OSD (On Screen Display) Rotate**.
3. Press the ► button and then use ▲ / ▼ button to select **Normal** or **Rotate**.
 - Select **Normal**, if the monitor was installed horizontally.
 - Select **Rotate**, if the monitor was installed vertically.
4. Press the **OK** button to save.

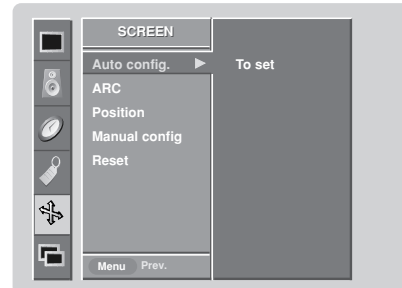

Screen Menu Options

Auto Adjustment

- RGB (PC) mode only; This function doesn't work for RGB-DTV mode.
- Automatically adjusts picture position and minimizes image shaking.
- After adjustment, if the image is still not correct, your Monitor is functioning properly but needs further adjustment.
- The **Auto config.**, **Position** and **Manual config.** are not active in DVI mode.

1. Press the **MENU** button and then use **▲ / ▼** button to select the **SCREEN** menu.
2. Press the **►** button and then use **▲ / ▼** button to select **Auto config.**
3. Press the **►** button to run Auto configure.
 - When **Auto config.** has finished, **OK** will be shown on screen.
 - If the position of the image is still not correct, try Auto adjustment again.
4. In RGB (PC) mode, if the image needs to be adjusted more after using **Auto config.**, you can make further adjustments with the **Manual config.** option.

Setting Picture Format

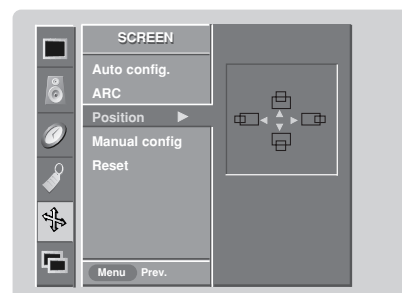

- Caution: If a 4:3 fixed image is on the screen for a long time, it may remain visible.
- Set every aspect ratio for Monitor, Video, Component 480i sources.
- Use 4:3, or 16:9 for other RGB-PC and DVI-PC sources.
- Horizon is not available for Component (480p,720p,1080i), DTV (480p,720p,1080i) sources.

1. Press the **ARC** button repeatedly to select the desired picture format. You can also adjust **ARC** in the **SCREEN** menu.
 - **4:3**
Choose **4:3** when you want to view a picture with an original 4:3 aspect ratio, with black bars appearing at both the left and right sides.
 - **16:9**
Choose **16:9** when you want to adjust the picture horizontally, in a linear proportion to fill the entire screen.
 - **Horizon**
Choose **Horizon** when you want to adjust the picture in a non-linear proportion, that is, more enlarged at both sides, to create a spectacular view.
 - **Zoom**
Choose **Zoom** when you want to view the picture without any alteration. However, the top and bottom portions of the picture will be cropped.

Screen Position

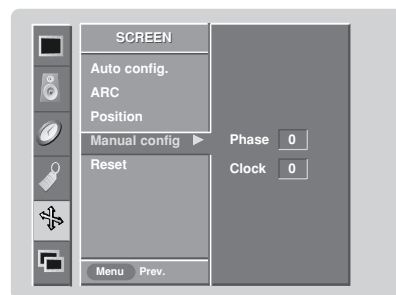

- This function works in the following modes:
RGB-PC, RGB-DTV (480p,720p,1080i), DVI-DTV (480p,720p,1080i), COMPONENT (480p,720p,1080i).

1. Press the **MENU** button and then use **▲ / ▼** button to select the **SCREEN** menu.
2. Press the **►** button and then use **▲ / ▼** button to select **Position**.
3. Press the **►** button and then use **▲ / ▼ / ◀ / ▶** button to adjust the position.
4. Press the **OK** button to save.

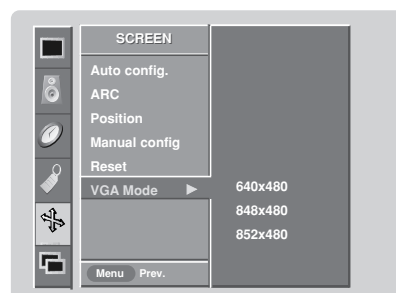

Manual Configure (RGB-PC mode only)

1. Press the **MENU** button and then use **▲ / ▼** button to select the **SCREEN** menu.
2. Press the **►** button and then use **▲ / ▼** button to select **Manual config.**
3. Press the **►** button and then use **▲ / ▼** button to select **Phase** or **Clock**.
4. Use the **◀ / ▶** button to make appropriate adjustments.
 - The **Phase** adjustment range is 0 ~ 30.
 - The **Clock** adjustment range is -127 ~ +128.
5. Press the **OK** button to save.

Selecting VGA/XGA Mode (RGB-PC mode only)

- To see a normal picture, match the resolution of RGB mode and selection of VGA/XGA mode.
1. Press the **MENU** button and then use **▲ / ▼** button to select the **SCREEN** menu.
 2. Press the **►** button and then use **▲ / ▼** button to select **VGA Mode** (or **XGA Mode**).
 3. Press the **►** button and then use **▲ / ▼** button to select the desired VGA/XGA resolution.
 4. Press the **OK** button to save.

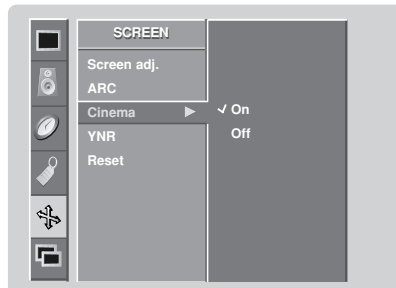

Screen Adjustments (Video, S-Video and Component 480i mode only)

- Use this function to correct jittering or picture instability while viewing a video tape.
1. Press the **MENU** button and then use **▲ / ▼** button to select the **SCREEN** menu.
 2. Press the **►** button and then use **▲ / ▼** button to select **Screen adj.**
 3. Press the **►** button and then use **▲ / ▼** button to select **TV** or **VCR**.
 - Select the **VCR** option if watching a VCR.
 - Select the **TV** option for other equipment. (Except VCR)
 4. Press the **OK** button to save.

Cinema Mode Setup (Video, S-Video and Component 480i mode only)

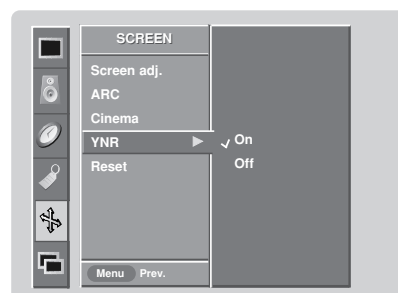

- Sets up the Monitor for the best picture appearance for viewing movies.
1. Press the **MENU** button and then use **▲ / ▼** button to select the **SCREEN** menu.
 2. Press the **►** button and then use **▲ / ▼** button to select **Cinema**.
 3. Press the **►** button and then use **▲ / ▼** button to select **On** or **Off**.
 4. Press the **OK** button to save.

Screen Menu Options continued

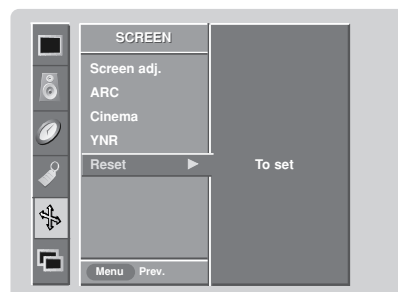

Luminance Noise Reduction (Video and Component 480i modes only)

- Use YNR to reduce the picture noise that may appear on the screen.
1. Press the **MENU** button and then use **▲ / ▼** button to select the **SCREEN** menu.
 2. Press the **►** button and then use **▲ / ▼** button to select **YNR**.
 3. Press the **►** button and then use **▲ / ▼** button to select **On** or **Off**.
 4. Press the **OK** button to save.

Initializing (Reset to original factory value)

- Reset is unique to each function: Manual config., Position, Split zoom, PIP position and sub picture size for double window.
 - Use the Reset option to initialize the adjusted settings.
1. Press the **MENU** button and then use **▲ / ▼** button to select the **SCREEN** menu.
 2. Press the **►** button and then use **▲ / ▼** button to select **Reset**.
 3. Press the **►** button.
 - You can initialize Position, Split zoom, PIP Transparency, PIP position, PIP size and sub picture size for double window.

Split Zoom

- Enlarges the picture in correct proportions.
- Split Zoom can be used for all input sources.
- In 2-Split Zoom mode, you can only move the image up or down.
- If an image is enlarged, a section can be viewed without using Split Zoom.

1. Press the **SPLIT ZOOM** button repeatedly to select either 2, 4, or 9 Split Zoom.

2. Press the number button corresponding to the section you wish to enlarge. You can move within the enlarged picture using the **▲ / ▼ / ◀ / ▶** button. To return to normal viewing, press the **SPLIT ZOOM** button again.

Example of choosing 5.

Section 5 is enlarged to fill the screen.

PIP (Picture-In-Picture)/Double Window Feature

- PIP lets you view 2 different inputs pictures (sources) on your Monitor screen at the same time. One source will be large, and the other source will show a smaller inset image.
- Double Window mode splits the screen into 2, allowing 2 picture sources to be shown on the Monitor screen at the same time. Each source is given half the screen.

Watching PIP/Double Window

Press the **PIP/DW** button to access the sub picture. Each press of PIP changes the PIP options as shown below.

Swapping the PIP/Double Window

Use the **SWAP** button to switch the main and sub picture.

Selecting an Input Signal Source for PIP/Double Window

Use the **SUB INPUT** button to select the input source for the sub picture. Each press of **SUB INPUT** button changes the PIP source.

Main Picture Source	Available Sub Picture Sources
Component 480p/720p/1080i, RGB or DVI	Component 480i, Video or S-Video
Component 480i	RGB, DVI, Component 480i/480p/720p/1080i, Video, S-Video
Video	RGB, DVI, Component 480i/480p/720p/1080i, S-Video
S-Video	RGB, DVI, Component 480i/480p/720p/1080i, Video

Moving the PIP (PIP Mode only)

Press the **POSITION** button.

Press the **▲ / ▼ / ◀ / ▶** button repeatedly until desired position is achieved. The sub picture moves up/down/left/right.

- You can also move the PIP position with **Win.position** in the **PIP/DW** menu.

PIP Size

Press the **WIN.SIZE** button and then use **◀ / ▶** button to change the sub picture size.

- Using the Win.size function in Double Window mode, main and sub picture sizes are changed simultaneously. Using the Win.size function in PIP mode, sub picture size is changed.
- You can also change the sub picture size with **Win.size** in the **PIP/DW** menu.

PIP Transparency (PIP Mode only)

- To make the PIP clear or opaque

1. Press the **MENU** button and then use **▲ / ▼** button to select the **PIP/DW** menu.
2. Press the **▶** button and then use **▲ / ▼** button to select **PIP Transparency**.
3. Press the **▶** button and then use **◀ / ▶** button to adjust PIP transparency.
 - The adjustment range of **PIP Transparency** is 0 ~ 10.
4. Press the **OK** button to save.

External Control Device Setup

- Connect the RS-232C input jack to an external control device (such as a computer or an A/V control system) and control the Monitor's functions externally.
- Connect the serial port of the control device to the RS-232C jack on the Monitor back panel.
- RS-232C connection cables are not supplied with the Monitor.

RS-232C Setup

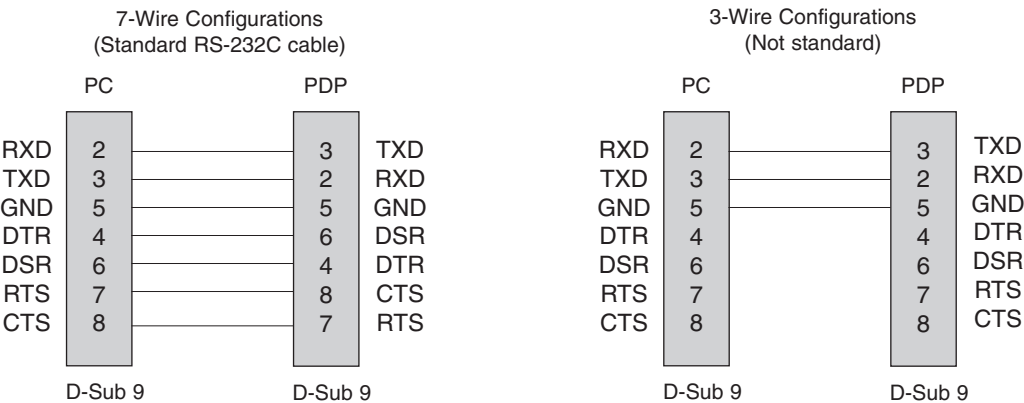

Type of Connector; D-Sub 9-Pin Male

No.	Pin name
1	No connection
2	RXD (Receive data)
3	TXD (Transmit data)
4	DTR (DTE side ready)
5	GND
6	DSR (DCE side ready)
7	RTS (Ready to send)
8	CTS (Clear to send)
9	No Connection

RS-232C Configurations

Set ID

- Use this function to specify a monitor ID number.
- Refer to 'Real Data Mapping 1'. See page 32.

1. Press the **MENU** button and then use **▲** / **▼** button to select the **SPECIAL** menu.
2. Press the **▶** button and then use **▲** / **▼** button to select **Set ID**.
3. Press the **▶** button and then use **◀** / **▶** button to adjust **Set ID** to choose the desired monitor ID number. The adjustment range of **Set ID** is 1 ~ 99.
4. Press the **OK** button to save.

Communication Parameters

- Baud rate :9600 bps (UART)
- Data length : 8 bits
- Parity : None
- Stop bit : 1 bit
- Communication code : ASCII code

* Use a crossed (reverse) cable.

Transmission / Receiving Protocol

Transmission

[Command1][Command2][][Set ID][][Data][Cr]

- * [Command 1]: First command to control PDP set. (j, k or m)
- * [Command 2]: Second command to control PDP set.
- * [Set ID]: You can adjust the set ID to choose desired monitor ID number in Special menu. Adjustment range is 1 ~ 99. When selecting Set ID '0', every connected PDP set is controlled. Set ID is indicated as decimal (1~99) on menu and as Hexa decimal (0x0~0x63) on transmission/receiving protocol.
- * [DATA]: To transmit command data.
Transmit 'FF' data to read status of command.
- * [Cr]: Carriage Return
ASCII code '0x0D'
- * []: ASCII code 'space (0x20)'

OK Acknowledgement

[Command2][][Set ID][][OK][Data][x]

- * The Monitor transmits ACK (acknowledgement) based on this format when receiving normal data. At this time, if the data is data read mode, it indicates present status data. If the data is data write mode, it returns the data of the PC computer.

Error Acknowledgement

[Command2][][Set ID][][NG][Data][x]

- * The Monitor transmits ACK (acknowledgement) based on this format when receiving abnormal data from non-viable functions or communication errors.

Data 1: Illegal Code
2: Not supported function
3: Wait more time

01. Power (Command2:a)

- To control Power On/Off of the TV.

Transmission

[k][a][][Set ID][][Data][Cr]

Data 0 : Power Off 1 : Power On

Acknowledgement

[a][][Set ID][][OK][Data][x]

* In a like manner, if other functions transmit 'FF' data based on this format, Acknowledgement data feedback presents status about each function.

02. Input Select (Command2:b) (Main Picture Input)

- To select input source for the Monitor.
You can also select an input source using the Monitor/VIDEO button on the Monitor's remote control.

Transmission

[k][b][][Set ID][][Data][Cr]

Data 1 : Video 4 : Component 2
2 : S-Video 5 : RGB

Troubleshooting Checklist

No picture & No sound	<ul style="list-style-type: none"> • Check whether the Monitor is turned on. • Is the power cord inserted into wall power outlet? • Test the wall power outlet, plug another product's power cord into the outlet where the Monitor's power cord was plugged in.
Picture OK & No sound	<ul style="list-style-type: none"> • Press the VOLUME (►) button. • Sound muted? Press MUTE button.
The remote control doesn't work	<ul style="list-style-type: none"> • Check to see if there is any object between the Monitor and the remote control causing obstruction. • Are batteries installed with correct polarity (+ to +, - to -)? (Refer to p.8) • Install new batteries. (Refer to p.8)
Picture appears slowly after switching on	<ul style="list-style-type: none"> • This is normal, the image is muted during the Monitor startup process. Please contact your service center, if the picture has not appeared after five minutes.
No or poor color or poor picture	<ul style="list-style-type: none"> • Select Color in the Picture menu and press the VOLUME (►) button. (Refer to p.18) • Keep a sufficient distance between the Monitor and the VCR. • Activate any function to restore the brightness of the picture. (If still picture is on the screen for more than 5 minutes, the screen gets dark.)
Horizontal/vertical bars or picture shaking	<ul style="list-style-type: none"> • Check for local interference such as an electrical appliance or power tool.
No output from one of the speakers	<ul style="list-style-type: none"> • Adjust Balance in the Sound menu. (Refer to p.20)
Unusual sound from inside the Monitor	<ul style="list-style-type: none"> • A change in ambient humidity or temperature may result in an unusual noise when the plasma display is turned on or off and does not indicate a fault with the Monitor.

Maintenance

- Early malfunctions can be prevented. Careful and regular cleaning can extend the amount of time you will have your new Monitor. Be sure to turn the power off and unplug the power cord before you begin any cleaning.

Cleaning the Screen

1. Here's a great way to keep the dust off your screen for a while. Wet a soft cloth in a mixture of lukewarm water and a little fabric softener or dish washing detergent. Wring the cloth until it's almost dry, and then use it to wipe the screen.
2. Make sure the excess water is off the screen, and then let it air-dry before you turn on your Monitor.

Cleaning the Cabinet

To remove dirt or dust, wipe the cabinet with a soft, dry, lint-free cloth.
Please be sure not to use a wet cloth.

Extended Absence

If you expect to leave your Monitor dormant for a long time (such as a vacation), it's a good idea to unplug the power cord to protect against possible damage from lightning or power surges.

Product Specifications

MODEL	MU-60PZ95V
Width (inches / mm)	57.3 / 1455
Height (inches / mm)	34.8 / 883
Depth (inches / mm)	3.9 / 99
Weight (pounds / kg)	137 / 62.2
Power requirement	AC100-240V, 50/60Hz
Resolution	1366 x 768 (Dot)
Color	16,770,000 (256 steps of each R, G and B)
Operating Temperature Range	32 ~ 104°F (0 ~ 40°C)
Operating Humidity Range	Less than 80%
Maximum Elevation	6561 feet (2000m)

- The specifications shown above may be changed without notice for quality improvement.

LG ELECTRONICS, INC.
PLASMA DISPLAY PANEL — U.S. LIMITED WARRANTY

Your LG Plasma Display Panel will be repaired or replaced in accordance with the terms of this warranty, at LGE's option, if it proves to be defective in material or workmanship under normal use, during the warranty period ("Warranty Period") listed below, effective from the date ("Date of Purchase") of original consumer purchase of the product. This warranty is good only to the original purchaser of the product and effective only when used in the United States, including Alaska, Hawaii, and U.S. Territories.

WARRANTY PERIOD:

LABOR and PARTS: 2 YEARS from the Date of Purchase. Your unit will be repaired or replaced with a new, substitute model or factory reconditioned unit, at LGE's option. If repaired, parts used in the repair may be new or remanufactured.

Replacement Units and Repair Parts are warranted for the remaining portion of the original unit's warranty period.

EFFECTIVE DATE OF WARRANTY: Your warranty period begins on the date of sale to the original consumer/end user. KEEP THE DEALER'S DATED BILL OF SALE OR PROOF OF DELIVERY as evidence of the purchase date. You will be required to submit a legible copy of your bill of sale or proof of delivery when requesting warranty service.

HOW SERVICE IS HANDLED:

In-Home Service: Please retain dealer's dated bill of sale or delivery ticket as evidence of the Date of Purchase for proof of warranty, and submit a copy of the bill of sale to the service person at the time warranty service is provided.

Please call 1-800-243-0000 to locate your nearest LGE Authorized Service Center.

THIS WARRANTY IS IN LIEU OF ANY OTHER WARRANTY, EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION, ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. TO THE EXTENT ANY IMPLIED WARRANTY IS REQUIRED BY LAW, IT IS LIMITED IN DURATION TO THE EXPRESS WARRANTY PERIOD ABOVE. NEITHER THE MANUFACTURER NOR ITS U.S. DISTRIBUTOR SHALL BE LIABLE FOR ANY INCIDENTAL, CONSEQUENTIAL, INDIRECT, SPECIAL, OR PUNITIVE DAMAGES OF ANY NATURE, INCLUDING WITHOUT LIMITATION, LOST PROFITS, LOST OR CORRUPTED PROGRAMMING OR DATA, OR ANY OTHER DAMAGE WHETHER BASED IN CONTRACT, TORT, OR OTHERWISE. Some states do not allow the exclusion or limitation of incidental or consequential damages or limitations on how long an implied warranty lasts, so the above exclusion or limitation may not apply to you. This warranty gives you specific legal rights and you may also have other rights that vary from state to state.

CONCERNING PIXEL FUNCTIONALITY: Your Plasma Display Panel contains about one million individual pixels. Plasma Display Panel typically contain a small number of pixels that do not function normally. Your display has been inspected and is in compliance with manufacturer's specifications, indicating that any pixel defects do not effect the operation or use of your display.

IMPORTANT: Please fill out and mail in your Product Registration Card or go to www.lgservice.com to register your product online. This information will allow us to reach you promptly should we discover a safety or reliability problem that could affect you.

THIS LIMITED WARRANTY DOES NOT APPLY TO:

<ul style="list-style-type: none">● damage caused in shipping or transit● service required as a result of improper installation, including incorrect or insufficient AC supply (please consult the owner's manual for power supply requirements)● installation or repair of antenna systems, cable converters, cable company supplied equipment, or other components in a video system● set-up or adjustment on consumer controls, or damage caused by improper adjustments● damage caused by other system components● any panel that has been modified or incorporated into any other product● replacement of batteries on the remote control.● damage (including cosmetic damage), failure, loss or personal injury due to misuse, abuse, negligence, improper maintenance or storage, or to acts of nature or other causes beyond our control. (Causes beyond our control include but are not limited to lightning strike, power surges, power outages and water damage.)	<ul style="list-style-type: none">● image burn-in● repair or replacement of warranted parts by other than LGE authorized service centers.● units purchased or serviced outside of the coverage area.● product where the original factory serial numbers have been removed, defaced or changed in any way.● product sold and labeled as "as is, where is" or similar disclaimer.
---	---

The cost of repair or replacement under these excluded circumstances shall be borne by the consumer.

CUSTOMER INTERACTIVE CENTER NUMBERS:

To obtain customer assistance, product information or Dealer or Service locations	Call 1-800-243-0000 24 hours a day, 365 days per year
--	---

FOR SERVICE:

Before you call for warranty service, check your operating guide – you may avoid a service call.

For warranty service information, please contact the LGE Customer Interactive Center telephone number.

When calling for service, **please have your product model number, serial number and the date of purchase or the date of original installation available.**

If a replacement unit is required, under some circumstances you may be asked to provide a reserve deposit to the LGE Service Center against a credit card number as surety for advanced shipment. Your credit card will not be charged if you return the defective unit within 10 working days.

If a replacement unit is received, please use the carton and packaging from that unit in returning the defective unit to the LG®Brand Service Center.

Parts and service in accordance with the LGE warranty are LGE's responsibility and will be provided without charge. Other service requirements will be at the owner's expense. If you have problems in obtaining satisfactory warranty service, write or call the LGE Customer Interactive Center. Service may be provided by independently owned and operated service organizations.

To assure proper credit and avoid unnecessary charges, you must obtain an LGE Return Authorization before returning any product to the LGE Service Center. Contact the Customer Interactive Center for details.
